NRO REVIEW COMPLETED

12 February 1963

MEMORANDUM FOR: Deputy Director (Research)
THROUGH: Assistant Director (Special Activities) *JK*
SUBJECT: Review of OXCART Contingency Plan

1. It is my understanding that recently Dr. Fubini expressed his dissatisfaction with the currently approved OXCART contingency and cover plan, although I was not informed in detail concerning his objections.

2. In any event, because of this and because we are about to enter a new phase of the program (i.e., procurement of the Air Force version, increased sortie rate, etc.), it is recommended that you request Dr. Charyk to call a meeting of the Cover Committee for the purpose of reviewing the present plan and either amending it if such appears necessary, or reaffirming its validity as it now is written. I think Dr. Fubini should be invited to express his views and suggestions.

25X1

3. In conjunction with reviewing the OXCART plan it might also be advisable for the Committee to re-examine the other cover and contingency plans to insure that they are still applicable.
